NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Pend Oreille County reports financial activity using the revenue and expenditure classifications, statements, and schedules contained in the Cash Basis Budgeting, Accounting and Reporting System (BARS) manual. This basis of accounting and reporting is another comprehensive basis of accounting (OCBOA) that is prescribed by the State Auditor's Office under the authority of Washington State law, Chapter 43.09 RCW.

Pend Oreille County was incorporated on March 1, 1911 and operates under the laws of the state of Washington applicable to a sixth class county. The county is a general purpose government and provides public safety, road maintenance and improvement, judicial administration, health and social services and general administrative services. The county uses single-entry, cash basis accounting which is a departure from generally accepted accounting principles (GAAP).

a. Fund Accounting

The accounts of the county are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for with a separate set of single-entry accounts that comprises its cash, investments, revenues and expenditures, as appropriate. The county's resources are allocated to and accounted for in individual funds depending on their intended purpose. The following are the fund types used by the county:

GOVERNMENTAL FUND TYPES:

General (Current Expense) Fund (001)

This fund is the primary operating fund of the county. It accounts for all financial resources except those required or elected to be accounted for in another fund.

Special Revenue Funds (100-199)

These funds account for specific revenue sources that are restricted or committed to expenditures for specified purposes of the county.

Debt Service Funds (200-299)

These funds account for the financial resources that are restricted, committed, or assigned to expenditures for principal, interest and related costs on general long-term debt.

Capital Projects Funds (300-399)

These funds account for financial resources which are restricted, committed, or assigned for the acquisition or construction of capital facilities or other capital assets.

PROPRIETARY FUND TYPES:

Enterprise Funds (400-499)

These funds account for operations that provide goods or services to the general public and are supported primarily through user charges.

Internal Service Funds (500-599)

These funds account for operations that provide goods or services to other departments or funds of the county on a cost-reimbursement basis.

FIDUCIARY FUND TYPES:

Fiduciary funds account for assets held by the county in a trustee capacity or as an agent on behalf of others.

Private Purpose Funds (621-630)

These funds report all trust arrangements under which principal and income benefit individuals, private organizations or other governments

Agency Funds (631-699)

These funds are used to account assets that county holds for others in an agency capacity.

b. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Revenues are recognized only when cash is received and expenditures are recognized when paid, including those properly chargeable against the report year(s) budget appropriations as required by state law.

Purchases of capital assets are expensed during the year of acquisition. There is no capitalization of capital assets, nor allocation of depreciation expense. Inventory is expensed when purchased.

The basis of accounting described above represents a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

c. Budgets

The county adopts annual appropriated budgets for all funds. These budgets are appropriated at the fund level except the general (current expense) fund, where budget is adopted at the department level. The budget constitutes the legal authority for expenditures at that level. Annual appropriations for these funds lapse at the fiscal year end.

Annual appropriated budgets are adopted on the same basis of accounting as used for financial reporting.

The appropriated and actual expenditures for the legally adopted budgets were as follow:

Budgeted amounts are authorized to be transferred between (departments within any fund/object classes within departments); however, any revisions that alter the total expenditures of a fund, or that affect the number of authorized employee positions, salary ranges, hours, or other conditions of employment must be approved by the county's legislative body.

d. Cash

It is the county's policy to invest all temporary cash surpluses. The amount is included in the cash and investments shown on the statements of fund resources and uses arising from cash transactions. The interest on these investments is posted to the current expense fund.

The amounts reported as net cash and investments also include a compensating balance maintained with the bank in lieu of payments for services rendered. The average compensating balance maintained during 2011 was approximately \$3,094,854.

Deposits

The county deposits and certificates of deposit are covered by the Federal Deposit Insurance Corporation and/or the Washington Public Deposit Protection Commission.

f. Investments See Note No. 3

g. Derivatives and Similar Transactions

The county had no derivative or similar transactions during the period covered by the financial statement.

h. Capital Assets

Capital assets are long-lived assets of the county and are recorded as expenditures when purchased.

i. Compensated Absences

Vacation leave may be accumulated up to 30 days unless specified by a bargaining unit contract and is payable upon resignation, retirement, or death.

Sick leave may be accumulated indefinitely, unless specified by a bargaining unit contract. Upon separation, employees do not receive payment for unused sick leave. Upon retirement or death, employees do receive payment for 1/3 of unused sick leave with a cap of 50 days.

j. Long-Term Debt See Note No. 6

RISK MANAGEMENT

Pend Oreille County is one of twenty-seven members of the Washington Counties Risk Pool ("Pool"). Other members include: Adams, Benton, Chelan and Clallam, Clark, Columbia, Cowlitz and Douglas, Franklin, Garfield, Grays Harbor and Island, Jefferson, Kittitas, Lewis and Mason, Okanogan, Pacific and San Juan, Skamania, Skagit, Spokane and Thurston, Walla Walla, Whatcom and Yakima Counties. Kitsap, Klickitat and Whitman Counties are former Pool members, having terminated their memberships September 30, 2010, 2002 and 2003 respectively.

Contingent Liability: The Pool is a cooperative program with joint liability amongst its participating members. Contingent liabilities occur when assets are not sufficient to cover liabilities. Deficits resulting from any of the Pool's fiscal years are financed by proportional reassessments (aka retroactive assessments) amongst the deficient year's membership. The Pool's reassessments receivable balance at December 31, 2011 was \$0 as no contingent liabilities were known to exist at that time.

Joint Self-Insurance Liability Program: The Pool has provided its member counties occurrence-based, jointly self-insured and/or jointly purchased liability coverage for 3rd-party bodily injury, personal injury, property damage, errors and omissions, and advertising injury, including public officials' errors and omissions, since October 1, 1988. Total coverage limits have grown over time, from the \$1 million limit during the Pool's initial two months to \$5 million, then to \$10 million and onto \$15 million before reaching the \$20 million limit the past eight years. (Note: Additional limits of \$5 million were offered the past several years for acquisition as a member-by-member option.)

Except for the Pool's self-insured retention (the greater of the member's deductible or \$100,000), the initial coverage of at least \$10 million has been fully reinsured since October 1994 by superior-rated commercial carriers. Members annually select a deductible amount of \$10,000, \$25,000, \$50,000, \$100,000, \$250,000 or \$500,000. The remaining insurance (up to \$15 million) is acquired as "following form" excess insurance, also from superior-rated commercial carriers. There are no aggregate limits to the payments made for any one member county or all member counties combined.

The Pool's claims database increased during Py2011 with the addition of 744 new claims (and lawsuits) raising the 3rd-party liability claims to-date total submitted by member counties to 17,982. Estimates of total incurred losses (payments made plus reserved estimates for *open* claims) increased \$16.0 million during the year to \$237.4 million.

Washington Counties Property Program: Since the Pool began offering the jointly-purchased, fully-insured property insurance coverage to its membership in October 2005 as an individual county option, participation has grown by more than 50% and the total value of covered properties has nearly doubled. Twenty seven member counties with covered properties totaling \$2.6 billion participated in this program during Py2011.

Coverage is for structures, vehicles, mobile equipment, EDP equipment, etc., and composite limits include \$500 million for normal (All Other Perils) exposures and \$200 million for catastrophe (Flood / Earthquake) exposures. Occurrence deductibles, which the participating counties annually select from and which they are solely responsible for, range between \$5,000 and \$50,000 for the AOP coverage.

Superior-rated commercial insurers are responsible for covered losses exceeding the participant deductibles to the maximum limits of the policy. There were 13 property claims submitted for processing during Py2011 with incurred losses-to-date totaling nearly \$0.85 million. During its first six years being offered through the WCRP as an optional insuring program, there have been 78 property claims filed with incurred losses-to-date totaling nearly

\$9.75 million. With to-date premiums for this coverage totaling \$13.75 million, the resulting to-date loss ratio is 0.71.

Other Insurances: Several member counties also use the Pool's producer (broker) for other insurance placements. Public officials bonds, or crime & fidelity, special events/concessionaires and environmental hazards insurance coverage's are a few examples.

Background: The Pool was formed August 18, 1988 when several Washington counties approved an Interlocal (Cooperative) Agreement under Chapter 39.34 RCW to provide its member counties with "joint" programs and services including self-insurance, purchasing of insurance, and contracting for or hiring of personnel to provide administrative services, claims handling and risk management. The Pool operates under Washington's "pooling" laws, more specifically Chapters 48.62 RCW and 200.100 WAC. It is overseen by the State Risk Manager and subject to fiscal audits performed annually by the State Auditor.

The Pool's mission is: To provide comprehensive and economical risk coverage; to reduce the frequency and severity of losses; and to decrease costs incurred in the managing and litigation of claims. The Pool's core values include: being committed to learn, understand and respond to the member counties' insurance needs; being committed to establish working relationships with all members that identify business issues and jointly develop solutions; member counties commit to allocate necessary resources to risk management in their own operations; the Pool's board of directors and professional staff share a commitment to manage the organization based on sound business principles, benchmarked industry standards and measurable outcomes; and being committed to continuous planning and innovation in product development and service delivery.

The enabling Interlocal Agreement was amended once (in 2000) to add a Membership Compact, a commitment to strengthen the Pool by helping its member counties implement and/or enhance local risk management efforts to reduce losses and support the best management of the Pool and its resources. The intent of the Compact was to obligate member counties to support these goals through three major elements; membership involvement, risk control practices, and a targeted risk management program.

A new member may be asked to pay modest admittance fees to cover that member's share of the Pool's organizational expenses and costs to analyze its loss data and risk profile. Members contract initially to remain in the Pool for at least five years. Counties may terminate their memberships at the conclusion of any Pool fiscal year following the initial term if the county timely files its required advance written notice. Otherwise, the Interlocal Agreement is renewed automatically for another year. Even after termination, a former member remains responsible for reassessments from the Pool for its proportional shares of any unresolved, unreported, and in-process claims for the periods they were a signatory to the Interlocal Agreement.

Governance / Oversight: The Pool is governed by a board of directors consisting of one director (and at least one alternate director) appointed by each member county. The Pool's board of directors, made up of both elected and appointed county officials, meets three times each year with the summer meeting being the Pool's Annual Meeting. The board of directors is responsible for determining the 3rd-party liability coverage to be offered (approving the insuring document or coverage form), the reinsurance program(s) to acquire and the excess insurance(s) to be jointly purchased or offered for optional purchase by the member counties, for approval of the Pool's annual operating budget(s) and work program(s), and for approval of the member deposit assessment formulas applicable to the ensuing policy year.

Regular oversight of the Pool's operations is furnished by an 11-person executive committee. The committeepersons are elected by the Pool's board of directors from its membership to staggered, 3-year terms during each Annual Meeting. The committee meets several times throughout the year to approve all Pool disbursements and examine the Pool's financial health; to approve any case settlement exceeding the member's deductible by at least \$50,000, and to review all claims with incurred loss estimates exceeding \$100,000; to evaluate the Executive Director and the Pool's operations and program deliverables; and to participate in the board's standing committees (finance, personnel, risk management, and underwriting) for development or review/revision of the organization's policies and coverage documents.

Staffing and Support Teams: The Pool's 5-person claims staff with more than eighty years combined claims-handling experience handles or oversees the handling of the several hundred liability cases filed upon the Pool's member counties each year. This includes establishing reserves for covered events and estimating undiscounted

future cash payments for losses and their related claims adjustment expenses. Other Pool staffers provide various member services, e.g. conducting risk assessments and compliance audits, coordinating numerous trainings, researching other coverage's and marketing. Some address and support the organization's administrative needs.

Professionals from some of the most respected organizations worldwide are called upon regularly to address specific needs of the Pool. For example, independent actuarial services are furnished by PricewaterhouseCoopers, LLP; independent claims auditing is performed by Strategic Claims Direction with special claims audits frequently performed by the Pool's commercial reinsurers / insurers; insurance producer (broker) and advanced loss control services are provided by Arthur J. Gallagher Risk Management Services, Inc.; and coverage counsel is provided by J. William Ashbaugh of Hackett Beecher & Hart. These professionals are in addition to the many contracted and in-county attorneys assigned to defend Pool cases, as well as the examinations by and services from the State Risk Manager and the State Auditor.

Financial Summary: The following constitute the most significant highlights from the Pool's most recently completed Policy (Fiscal) Year (October 2010 through September 2011):

- Net Operating Income was realized of \$0.8 million, a 58% decrease from the prior year.
- Total Assets grew \$2.2 million (6%) to \$41.1 million. Current assets increased \$2.3 million (6%) while non-current assets decreased 4%.
- Total Claims Reserves for the Pool's direct reserving exposures increased to \$15.0 million, up 6.7% from the prior year. This total includes: \$5.6 million for losses in the coverage layer retained by the Pool, down 9.3%; \$8.6 million for the aggregated stop losses in the retained layers associated with the "corridor" program for automobile and general liabilities, up 22%; and \$0.8 million for unallocated loss adjustment expenses, down 5% from one year ago. *NOTE: The corridor program referenced is now five years old yet still not fully matured. Further, its occurrence coverage maximum was increased to one million dollars beginning with Py2010, up from the half million level that existed during the program's first three years, while the program's occurrence minimum remains the greater of the applicable member's deductible or \$100,000.*
- Net Position (formerly referred to as *Net Assets* and also known as *Members' Equity*) increased \$.08 million to \$11.0 million as of September 30, 2011. Of the total, \$5.5 million is classified as *Restricted Net Position* — \$0.9 million to satisfy the State's solvency provisions (WAC 200.100.03001) plus \$4.6 million for the Pool's Underwriting Policy requirements. \$0.2 million is invested in a real property (fraud) recovery, and another \$1 million in *Capital Assets* (net of debt). The remaining \$4.4 million held as *Non-Restricted Net Position* is available for use as directed by the Pool's Board of Directors.

m. Reserved Fund Balance

The County Board of Commissioner's resolved by Resolution 2008-1 and 2008-66 to keep a cash flow reserve within the Current Expense fund of \$1,000,000. In 2010 by Resolution 2010-62, the Board of County Commissioner's decreased the cash flow reserve to \$800,000, with the intent to return the cash flow reserve to \$1,000,000 when economically feasible.

NOTE 2 - COMPLIANCE AND ACCOUNTABILITY

There have been no material violations of finance-related legal or contractual provisions.

There have been no expenditures exceeding legal appropriations in any of the funds of the county.

NOTE 3 - INVESTMENTS

The county's investments are insured, registered or held by the county or its agent in the county's name. Investments are presented at cost.

The investment amounts listed under Pend Oreille County include county funds and funds of any municipal

corporation, which are not required for immediate expenditure. These funds are invested per RCW 36.29.020. The combined total is \$3,700,060, which includes county funds in the amount of \$2,041,353 and \$1,658,707 for other municipal corporations.

Investments by type at December 31, 2011 are as follows:

Type of Investment	Pend Oreille County	Investments held by the county as agent for other local or private organizations	Total

NOTE 4 - PROPERTY TAX

The county treasurer acts as an agent to collect property tax levied in the county for all taxing authorities. Collections are distributed after the end of each month. Property tax revenues are recognized when cash is received by the county treasurer. Delinquent taxes are considered fully collectible because a lien affixes to the property after tax is levied.

Property Tax Calendar

January 1	Taxes are levied and become an enforceable lien against properties.
April 30	First half or full tax is due.
May 31	Assessed value of property established for next year's levy at 100% of true and fair market value.
October 31	Second installment is due.

The county may levy up to \$1.80 per \$1,000 of assessed valuation for general government services, subject to the following restrictions.

- a) Washington State law (RCW 84.55.010) limits the growth of regular property taxes to one percent of the amount of regular property taxes lawfully levied in the highest of the three most recent years in which such taxes were levied plus adjustments for new construction, improvements to property, and state assessed

property values. If the assessed valuation increases by more than one percent due to revaluation, the levy rate will be decreased.

- b) The Washington State Constitution limits the total regular property taxes to one percent of assessed valuation or \$10 per \$1,000 of value. If the taxes of all districts exceed this amount each is proportionately reduced until the total is at or below the one percent limit.

The county's regular levy may exceed the \$1.80 (up to \$2.475) if the combined total of the county regular and county road levies do not exceed \$4.05 and no other taxing district is adversely affected.

Pend Oreille County's regular levy for the year 2011 was \$1.55 per \$1,000 on an assessed valuation of \$1,365,824,569 for a total regular levy of \$2,118,214.69. This includes a levy shift from Road to Current Expense of \$400,000.

The county is also authorized to levy \$2.25 per \$1,000 of assessed valuation in unincorporated areas for road construction and maintenance. This levy is subject to the same limitations as the levy for general government services. The county's road levy rate for 2011 was \$1.13 per \$1,000 on an assessed valuation of \$1,187,210,075 for a total road levy of \$1,344,678.46. This net amount reflects a levy shift from Road to Current Expense of \$400,000.

NOTE 5 - INTERFUND LOANS AND ADVANCES

The following table displays interfund loan activity during 2011:

NOTE 7 - PENSION PLANS

Substantially all county full-time and qualifying part-time employees participate in the Public Employees' Retirement System (PERS 1,2, and 3, PSERS) Or Law Enforcement Officers and Fire Fighters retirement system, (LEOFF 2) administered by the Washington State Department of Retirement Systems, under cost-sharing multiple-employer public employee defined benefit and defined contribution retirement plans. Actuarial information is on a system-wide basis and is not considered pertinent to the county's financial statements. Contributions to the systems by both employee and employer are based upon gross wages covered by plan benefits.

Historical trend or other information regarding each plan is presented in the Washington State Department of Retirement Systems annual financial report. A copy of this report may be obtained by writing to:

NOTE 8 - OTHER DISCLOSURES

1. No new funds were created in 2011.
2. No funds were closed in 2011.
3. At the end of 2010, the County Milfoil program was turned over to the PUD.
4. In 2011, after the revelation that there was a lack of funding for CASA, the GAL program was discontinued.
5. Explanation of reserved balance in Counseling Service Fund (102-000-000)
 - a) In 2011, Pend Oreille County was contacted by a representative of the Department of Social and Health Services, who informed us that an advance they provided in 1985 to the Counseling services for the purpose of covering lags in payments should show on the annual reporting. It has been reported as a reserved portion of the ending fund balance.

6. Explanation of beginning balances differing from 2010 ending fund balance
 - a) In 2010 reporting, the State changes required the inclusion of petty cash and department checking accounts in beginning and ending fund balances, one checking account reported in 2010 captured the beginning balance not the ending. The correction was made to the beginning balance in 2011.
7. Explanation of reserved balance in Current Expense fund (001-000-000)
 - a) The Cash flow reserve was established in 2008 to insure adequate cash flow throughout the year. It was originally set at \$800,000 and in December 2008, resolution 2008-66 added \$200,000 more to the reserve. In addition, Noxious Weed, a department within Current expense (001-000-475), must reserve the difference in income and expenditures in its' neighborhood cost-share program (\$2,337.57).
8. Pend Oreille County had been using an AS400 based software program (Computech) since 1988, due to the fact that Computech would no longer support the software, Pend Oreille County purchased a new Financial Software program (New World Logos). On January 1, 2011 Pend Oreille County Auditor's office went live with New World. Due to unresolved issues with the software, the Treasurer's office continued with double entry in both systems for the 2011 year. The software has expanded capabilities that will enhance the process and procedures of our daily business. Helping to give more detailed data to the county decision makers and the public while improving overall efficiency.
