

CRP 841 Leclerc Rd N Overlay

CRP 841 will overlay approximately 3.1 miles of Leclerc Road North. Connecting to the Phase 2 project, this work will extend the new surfacing along this corridor to 11.6 miles, or about 1/3 of the total length. Motorists can expect delays during this work, expected to begin in the summer of 2019. Project duration is anticipated to be 8 weeks.

Don Ramsey, P.E.

Project Engineer

George W. Luft

Design Engineer, Project Lead

Eric M. Roth, P.L.S.
