LATEX PAINT

Water Based Paint

How To Dispose of LATEX Paint:
Solidify LATEX paint at home by removing lid; add kitty litter, sawdust or other absorbent
Or
Remove lid, set can in the sun and let LATEX paint dry out and harden
Or
Use paint hardener purchased from a local hardware store.
Then dispose of dried LATEX paint cans, with the LIDS OFF, along with your regular trash.
LATEX paint cans are **not** recyclable metal.
They are garbage!
